Last Updated Friday, 25 November 2005

Hello everybody, well to start of with, an excellent site Ty keep up the good work its looking good mucker. Well 7 months spent in Iraq, went rather quick, again we spent all of it with Number Three Company what a shock hey!!!!!! The Drummers were commanded by an Officer called Mr Currie, the Drummers themselves done a very good job, standards were set high as usual and they done themselves proud.

I was the Multiple Commander of the Support Company attachments to the company with consisted of 4 snipers and 10 anti-tanks a good strong multiple so that was nice to have for the 7 months.

We are now settling back into Aldershot and starting to thrash out alot of music practise under the closeful eye of Drum Major Tony Taylor, so as you can imagine his standards are extremely high which the Drummers need to kick them into play which is really pleasing to see.

We are going on a well earned break for xmas and then we will most likely hit the ground running with music practise and alot of drill. Well for now I shall leave it there and I shall be in touch in the near future so everybody take care.

Regards Sgt Ben Roberts.
